

NAIT Information System Access Panel

Annual Report 2026

OSPRI | NAIT

NAIT Information System Access Panel

Annual Report 2026

This Annual Report of the NAIT Information System Access Panel *(Panel)* is provided in accordance with regulation 8 of the National Animal and Tracing (Information System Access Panel) Regulations 2012 *(Regulations)*. It reports on the year ended 30 June 2026.

OSPRI's National Animal Identification and Tracing (*NAIT*) programme operates under the National Animal Identification and Tracing Act 2012 (*Act*). It is an industry and Government initiative that links people, property and relevant classes of livestock in New Zealand.

Farmed cattle and deer are traced using NAIT-approved RFID ear tags. Once tagged, each animal is registered in the national database. The details recorded include:

- the animal's location
- movement in the animal's life
- contact details for the person in charge of that animal (a *PICA*).

NAIT data is captured for a wide range of reasons to benefit industry, Government and New Zealand including:

- lifetime traceability of animals
- improved biosecurity management
- food safety
- market access
- human health
- animal welfare
- natural disaster response
- policy development
- animal productivity.

The Act provides a comprehensive regime for the management of the data collected by NAIT to ensure that NAIT data is available for these purposes, whilst protecting the privacy of the individuals and organisations that contribute to this dataset[1].

Applications by third parties to be provided with data captured by NAIT are referred to the Panel or the Information System Administrator who are empowered by the Act to authorise disclosure of such data if certain statutory pre-requisites are met.

INFORMATION SYSTEM ACCESS PANEL

The Panel is established by regulation 4(1) of the Regulations and has the functions, duties and powers set out in regulation 7 of the Regulations. The members of the Panel are appointed by NAIT Limited pursuant to regulation 4 of the Regulations.

During the year to 30 June 2026, the members of the Panel were:

- Barry Brown (Panel member from 21 July 2015 and Chairman from 16 September 2015; reappointed 21 July 2018, 21 July 2021, and 21 July 2024)

1 See Part 4 of the National Animal Identification and Tracing Act 2012.

PANEL MEMBERS

at 30 June 2026

Barry Brown

Nikki Davies-Colley

Kelvan Smith

Dr Louise Cullen

(joined 1 March 2026)

James Parsons

was a Panel member during FY2026, between 1 July 2025 and 28 February 2026.

- Nikki Davies-Colley (Panel member from 1 January 2021; reappointed 1 January 2024)
- Kelvan Davies (Panel member from 1 April 2025)
- Dr Louise Cullen (Panel member from 1 March 2026)
- James Parsons (ceased being a Panel member on 28 February 2026; was first appointed 1 March 2020).

All Panel members are appointed for three years.

INFORMATION SYSTEM ADMINISTRATOR

The NAIT Information System Administrator is appointed by NAIT Limited pursuant to section 39(2) of the Act. The role of the System Administrator is to manage access to the NAIT information system.

During the year to 30 June 2026, the System Administrator role was held by Thomas Gilmartin, who has been in the role from 26 July 2023.

PANEL MEETINGS AND REPORTS 1 JULY 2025 – 30 JUNE 2026

During the year, the Panel held four meetings and received quarterly reports from the System Administrator on applications received and decided.

The Panel maintains a register of member interests and a conflict of interests' policy. It regulates its own procedures.

APPLICATIONS RECEIVED AND/OR DECIDED 1 JULY 2025 – 30 JUNE 2026

In the year that ended 30 June 2026, 24 applications were received for access to NAIT data. One application was withdrawn prior to determination, and two applications had not been determined by 30 June 2026.

Of the 21 applications determined in this year:

- four applications were determined by the Panel
- one application was determined by the Panel Chair as all other Panel members had a conflict of interest
- nine applications were responded to by the OSPRI Support Centre in accordance with the approval granted under application 422[2]
- seven applications were determined by the System Administrator.

Table 1 sets out the details of the applications determined within this reporting year (1 July 2025 – 30 June 2026). Table 2 reports the conditions of access imposed on applications.

DETERMINATIONS REVOKED

Applications #470a and #470b were revoked and replaced with application #499 when a subsidiary of the original applicant took over the EUDR (the EU Regulation on Deforestation-free Products) compliance system.

ONGOING REVIEW OF DETERMINATIONS WITH OPEN CONDITIONS

The System Administrator updates the Panel on previous determinations that have open conditions. At 30 June 2026, there are eight determinations with open conditions being monitored.

NO COMPLAINTS

There were no complaints received during the reporting period.

NO BREACHES OF CONDITIONS

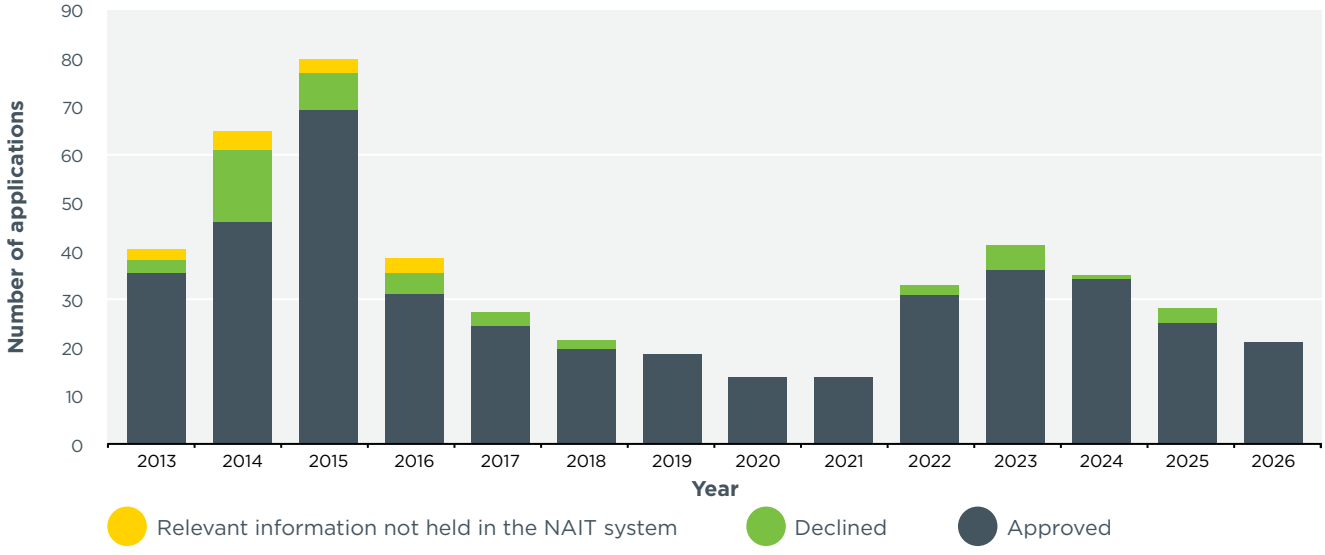

There were no reports of breaches of conditions of approved applications received during the reporting period.

SUMMARY OF APPLICATION DECISIONS SINCE 2012

The number of applications for access to NAIT has varied over the past thirteen years (see Figure 1). Approximately 90% of applications have been granted during this time.

FIGURE 1

Summarises applications considered since NAIT's establishment in July 2012.

2 The Panel approved, under application 422, that the OSPRI Support Centre can respond to certain limited information requests, in relation to dead or wandering livestock, received from the New Zealand Police or animal welfare officers in local or regional councils.

TABLE 1

Details of the applications determined within this reporting year

(1 JULY 2025 – 30 JUNE 2026)

Note application #491 was withdrawn by the applicant prior to determination. Applications #500 and #502 have been submitted but not determined by 30 June 2026 and determinations will be reported in the 2027 annual report.

TABLE 2

Conditions of access imposed on applications determined within this reporting year

(1 JULY 2025 – 30 JUNE 2026)

The applicants of all approved applications are advised that the information provided to them must only be used for the purpose in section 40 under which the application is granted.

Application number	Conditions of access
480	1. The determination comes into effect on 1 January 2025. 2. The NAIT information provided to the Applicant under this Determination (whether in the form in which that information is provided to the Applicant by OSPRI on NAIT's behalf or in any other form or derivation) must be used only for the purposes for which access under section 46 of the NAIT Act 2012 was granted, namely for the purpose of administering the *M. bovis* eradication programme in New Zealand. 3. The Applicant is under a duty of confidentiality with regard to the NAIT information provided to the Applicant under this Determination. 4. The NAIT information provided to the Applicant under this Determination must be stored safely and securely by the Applicant. 5. The use and storage of the NAIT information provided to the Applicant under this Determination must not contravene any New Zealand law, including without limitation the Privacy Act 2020. 6. NAIT information obtained by the Applicant from the NAIT information system, and any copies or subsets or derivations, may be held by the Applicant for the duration of this programme of work. 7. The NAIT System Administrator or the NAIT Information System Access Panel may (A) annually or more frequently review the operation of the provision of NAIT information to the Applicant and the use and storage of that data (or any derivation of it) by the Applicant, and/or (B) at any time in writing require the Applicant to provide to the NAIT System Administrator or its delegate written confirmation and/or such other evidence as may be reasonable that these Conditions are being complied with on an ongoing basis. 8. The Applicant acknowledges that information provided by NAIT from its information system is data provided to that system by third parties. Accordingly, NAIT disclaims all responsibility for, and accepts no liability in relation to, the accuracy, or completeness of that data or its fitness for any particular purpose. 9. Failure by the Applicant to comply with one or more of these Conditions is an infringement offence under the NAIT Act 2012. If the Applicant fails to comply with its obligations in relation to the NAIT information (including complying with these Conditions) then the NAIT System Administrator or the NAIT Information System Access Panel may, at its discretion, by notice in writing to the Applicant, require the immediate cessation of the provision and use of NAIT information pursuant to this Determination and/or require the Applicant to take such other steps considered by that Panel or System Administrator to be necessary or desirable to ensure compliance with these Conditions. 10. The Applicant may arrange with OSPRI to provide, through OSPRI's Databricks system, to an appropriately qualified and reputable contractor engaged by the Applicant under an appropriate written contract (*Relevant Contractor*) the following NAIT core data that is not personal information in respect of cattle for each of the calendar years from and including 2015 to and including 2024 (*Relevant Information*): a. All animal details (animals that were alive during the relevant period); b. All animal movement details; and c. NAIT location details (not personal) for all NAIT cattle numbers active during the relevant period. 11. The Applicant must notify the System Administrator in a timely manner: a. The name, address and contact details of the Relevant Contractor when it is appointed; and b. When the Relevant Contractor commences to access Relevant Information from OSPRI's Databricks system.

TABLE 2 CONTINUED

Application number	Conditions of access
	12. Relevant Information must be used by the Relevant Contractor solely for the purposes (*Permitted Use*) of preparing for the Applicant an animal social network analysis to inform the optimisation of the Applicant's *M. bovis* surveillance programme as part of the confidence phase of the Applicant's *M. bovis* eradication programme. That analysis will be used to assess the Applicant's existing surveillance programmes and to identify any NAIT locations or regions that: a. Are at higher risk of disease due to aggregation of animals from multiple suppliers b. Are in proximity to higher risk NAIT locations c. Are not sufficiently captured by current disease surveillance activities d. May be influential in the spread of disease. 13. The Applicant must ensure that the Relevant Contractor is contractually obliged by the Applicant to: a. Use the Relevant Information only for the Permitted Use; b. Keep the Relevant Information confidential and not disclose it to any third party; c. Store the Relevant Information in a safe and secure manner; and d. Permanently delete or otherwise remove the Relevant Information from the Relevant Contractor's storage system on the earlier of 30 June 2026 or the conclusion of the Relevant Contractor's analytical work. 14. The Applicant must include in its contract with the Relevant Contractor an acknowledgement from the Relevant Contractor to the same effect of that in Condition 8 of this Determination and an undertaking by the Relevant Contractor to observe Condition 5 of this Determination. 15. Without limiting Condition 7 of this Determination the NAIT System Administrator or the NAIT Information System Access Panel may at any time and from time to time require the Applicant to provide to the System Administrator or their delegate: a. Evidence and an assurance from OSPRI as to what information the Relevant Contractor has accessed through OSPRI's Databricks system; and/or b. A written undertaking that all or any one or more of Conditions 10 to 14 are being complied with.

TABLE 2 CONTINUED

Application number	Conditions of access
490	1. The NAIT information provided under this Determination (*Relevant NAIT Information*) may be provided by or on behalf of NAIT direct to any one or more of the Applicants and/or to any one or more of their nominated insurance specialists who (A) have been approved in writing by the System Administrator, and (B) have executed and delivered to the Applicants a Confidentiality Agreement (enforceable by NAIT) by which they agree to be bound by, and observe, these Conditions (each an *Insurance Specialis*t). If the Applicants wish to nominate an additional insurance specialist to undertake the relevant insurance assessment, then they must ensure that the requirements of this Condition 1 are met. 2. The Relevant NAIT Information (whether in the form in which that information is provided to the Applicants and/or the Insurance Specialists by, or on behalf of, NAIT or in any other form or derivation) must not be disclosed to any third party and must be used by each Applicant and each Insurance Specialist only for the purposes for which access to the Relevant NAIT Information has been granted under section 46 of the NAIT Act 2012, namely for the purpose of the Insurance Specialists assessing the scope, availability and cost of insurance cover for the Applicants in respect of their compensation liability (under the relevant industry agreement with the Government) in respect of a Foot and Mouth Disease outbreak in New Zealand. Without limiting the foregoing, an Insurance Specialist may only share the Relevant NAIT information with those of its employees responsible for assessing the scope, availability and cost of the relevant insurance cover. 3. The Applicants and the Insurance Specialists are under a duty of confidentiality with regard to the Relevant NAIT Information. In accordance with Condition 1 above, the Applicants must ensure that a Confidentiality Agreement exists between the Applicants and each insurance specialist to protect the security, use and confidentiality of the Relevant NAIT Information. 4. The Relevant NAIT Information provided to the Applicants must be stored safely and securely by the Applicants and the Insurance Specialists. 5. The use and storage of the Relevant NAIT Information by the Applicants and each Insurance Specialist must not contravene any New Zealand law, including without limitation the Privacy Act 2020. 6. The Relevant NAIT Information, and any copies or subsets or derivations, may be accessed and/or held by the Applicants and the Insurance Specialists for so long as is required to complete the disease spread modelling in respect of the potential insurance cover mentioned in Condition 1 above but in any event no longer than 30 June 2027. After that date, access to the Relevant NAIT information will be revoked and all Relevant NAIT Information (in whatever form it is held) must be destroyed by (as applicable) each Applicant and each Insurance Specialist and, if requested by the System Administrator, each Applicant and each Insurance Specialist must certify in writing to the System Administrator that all Relevant NAIT Information has been destroyed. 7. The NAIT System Administrator or the NAIT Information System Access Panel may: a. every year or more often review the provision of NAIT information to the Applicants and/or the Insurance Specialists and the use and storage of that data (or any derivation of it) by the Applicants and/or the Insurance Specialists, and/or b. at any time in writing require the Applicants and/or the Insurance Specialists to provide to the NAIT System Administrator or its delegate written confirmation and/or such other evidence as may be reasonable that these Conditions are being complied with on an ongoing basis. 8. The Applicants acknowledge (for themselves and also for each Insurance Specialist) that information provided by NAIT from its information system is data provided to that system by third parties. Accordingly, NAIT disclaims all responsibility for, and accepts no liability in relation to, the accuracy, or completeness of that information or its fitness for any particular purpose. 9. Failure by any one or more of the Applicants and/or any one or more of the Insurance Specialists to comply with one or more of these Conditions is an infringement offence under the NAIT Act 2012. If an Applicant or an Insurance Specialist fails to comply with its obligations in relation to the Relevant NAIT Information (including complying with these Conditions) then the NAIT System Administrator or the NAIT Information System Access Panel may, at its discretion, by notice in writing to the Applicants, require the immediate cessation of the provision and use of NAIT information pursuant to this Determination and/or require the Applicants and/or the Insurance Specialists to take such other steps considered by that Panel or System Administrator to be necessary or desirable to ensure compliance with these Conditions.

TABLE 2 CONTINUED

Application number	Conditions of access
495	1. The Applicant must use all reasonable endeavours to ensure that only Registered Farmers under the Applicant's Beef on Dairy Programme (each a *Registered Farmer*) are authorised to access the relevant OSPRI website pursuant to this Determination for the purposes of obtaining information from the NAIT information system as to whether an animal is of a dairy origin. 2. The NAIT information provided under this Determination to (as applicable) the Applicant or a Registered Farmer (*Relevant NAIT Information*) (whether in the form in which that information is provided to (as applicable) the Applicant and/or a Registered Farmer by , or on behalf of, NAIT or in any other form or derivation) must not be disclosed to any third party and must be used by the Applicant and the relevant Registered Farmer only for the purposes for which access to the Relevant NAIT Information has been granted under section 46 of the National Animal Identification and Tracing Act 2012 (NAIT Act), namely for the purpose of identifying whether an animal is of a dairy origin. 3. The Applicant and each Registered Farmer who accesses Relevant Information are under a duty of confidentiality with regard to the Relevant NAIT Information. The Applicant must ensure that confidentiality arrangements exist between the Applicant and each Registered Farmer to protect the security, use and confidentiality of the Relevant NAIT Information. 4. The Relevant NAIT Information provided to (as applicable) the Applicant and/or a Registered Farmer must be stored safely and securely by (as applicable) the Applicant and/or the Registered Farmer. 5. The use and storage of the Relevant NAIT Information by the Applicant and each Registered Farmer must not contravene any New Zealand law, including without limitation the Privacy Act 2020. 6. The Relevant NAIT Information, and any copies or subsets or derivations, may be accessed and/or held by the Applicant and a Registered Farmer only for so long as is required to identify whether a relevant animal is of a dairy origin, but in any event no longer than 31 December 2030. After that date, access to the Relevant NAIT information will be revoked (see also Condition 8 below) and all Relevant NAIT Information (in whatever form it is held) must be destroyed by (as applicable) the Applicant and each Registered Farmer. If requested by the System Administrator, the Applicant must certify in writing to the System Administrator that all Relevant NAIT Information has been destroyed. 7. The NAIT System Administrator or the NAIT Information System Access Panel may: a. every calendar year or more often review the provision of NAIT information to the Applicant and/or Registered Farmers and the use and storage of that data (or any derivation of it) by the Applicant and/or Registered Farmers, and/or b. at any time in writing require the Applicant to provide to the NAIT System Administrator or its delegate written confirmation and/or such other evidence as may be reasonable that these Conditions are being complied with on an ongoing basis. 8. This approval automatically expires on 31 December 2030 unless terminated earlier. If the Applicant and/or its Registered Farmers would like access to the relevant NAIT information after this date the Applicant must apply to the NAIT System Administrator for renewed access. 9. The Applicant acknowledges (for itself and also for each Registered Farmer) that information provided by National Animal Identification and Tracing (NAIT) Limited or OSPRI New Zealand Limited from the NAIT information system is information provided to that system by third parties. Accordingly, each of NAIT and OSPRI disclaims all responsibility for, and accepts no liability in relation to, the accuracy, or completeness of that information or its fitness for any particular purpose. 10. Failure by the Applicant and/or any one or more of the Registered Farmers to comply with one or more of these Conditions is an infringement offence under the NAIT Act 2012. If an Applicant or a Registered Farmer fails to comply with its obligations in relation to the Relevant NAIT Information (including complying with these Conditions) then the NAIT System Administrator or the NAIT Information System Access Panel may, at its discretion, by notice in writing to the Applicant, require the immediate cessation of the provision and use of NAIT information pursuant to this Determination and/or require the Applicant and/or one or more Registered Farmers to take such other steps considered by that Panel or System Administrator to be necessary or desirable to ensure compliance with these Conditions.

TABLE 2 CONTINUED

Application number	Conditions of access
497	1. The NAIT information provided under this Determination (whether in the form in which that information is provided to the Applicants by, or on behalf of NAIT Ltd, or in any other form or derivation) must be used only for the purposes for which access to the relevant NAIT Information has been granted under section 46 of the National Animal Identification and Tracing Act 2012 (NAIT Act), namely for the purpose of analysing statistical data about farming. 2. The Applicants and the Applicants' contractor are under a duty of confidentiality with regard to the relevant NAIT Information provided to the Applicants under this Determination. 3. The relevant NAIT Information provided to the Applicants must be stored safely and securely by the Applicant or the Applicant's contractor. 4. The use and storage of the Relevant NAIT Information by the Applicants and the Applicants' contractor must not contravene any New Zealand law, including without limitation the Privacy Act 2020. 5. NAIT information obtained by the Applicant or the Applicant's contractor from the NAIT information system, and any copies or subsets or derivations, may be held by the Applicant for the duration of six years. After this time, the data must be destroyed. 6. The NAIT System Administrator or the NAIT Information System Access Panel may: a. every year or more often review the provision of NAIT information to the Applicants or and the use and storage of that data (or any derivation of it) by the Applicants and the Applicants' contractor b. at any time in writing require the Applicants and/or the Applicants' contractor to provide to the NAIT System Administrator or its delegate written confirmation and/or such other evidence as may be reasonable that these Conditions are being complied with on an ongoing basis. 7. This approval automatically expires on 31 December 2032 unless terminated earlier. If the Applicants would like access to the relevant NAIT information after this date the Applicants must apply to the NAIT System Administrator for renewed access. 8. The Applicants acknowledge that information provided by National Animal Identification and Tracing (NAIT) Limited or OSPRI New Zealand Limited from the NAIT information system is information provided to that system by third parties. Accordingly, each of NAIT and OSPRI disclaims all responsibility for, and accepts no liability in relation to, the accuracy, or completeness of that information or its fitness for any particular purpose.

TABLE 2 CONTINUED

Application number	Conditions of access
499	1. The NAIT information provided to the Applicant under this Determination (whether in the form in which that information is provided to the Applicant by OSPRI on NAIT's behalf or in any other form or derivation) must be used only for the purpose for which access under section 46 of the NAIT Act 2012 was granted, namely for the purpose of the Applicant providing New Zealand meat processors with land deforestation-related information to assist meat processors to select animals for processing that meet the relevant EU requirements in relation to animal eligibility. 2. The Applicant must enter into a service level agreement (*SLA*) with OSPRI which outlines the service provided by OSPRI and the level of support agreed for the service. 3. The Applicant is under a duty of confidentiality with regard to the NAIT information provided to the Applicant under this Determination, subject to Condition 6 below. 4. The NAIT information provided to the Applicant under this Determination must be stored safely and securely by the Applicant. 5. The use and storage of the NAIT information provided to the Applicant under this Determination must not contravene any New Zealand law, including without limitation the Privacy Act 2020. 6. The NAIT information provided to the Applicant under this Determination must not be disclosed by the Applicant to any third party but the Applicant may provide New Zealand meat processors with land deforestation-related information for the specific purpose set out in Condition 1 above. 7. The Applicant must provide the NAIT System Administrator with a list of meat processors to which land deforestation-related information (based on NAIT information provided to the Applicant) will be provided by the Applicant. The Applicant must also advise if a meat processor enters or leaves that programme. 8. NAIT information obtained by the Applicant from the NAIT information system, and any copies or subsets or derivations, may be held by the Applicant and/or the relevant meat processor for 5 years as required by the relevant EU Regulation. After this time, the data must be destroyed. The Applicant will take reasonable steps to require relevant meat processors to destroy relevant information. 9. If (without the prior written consent of the NAIT System Administrator) there is a change in the direct or indirect ownership and/or control of the Applicant then (without limiting NAIT's other rights) NAIT may (by email or other written notice to the Applicant's last known address) discontinue the Applicant's access to NAIT data and require the Applicant to delete or otherwise destroy all NAIT data that has previously been provided to the Applicant. The Applicant shall give the NAIT System Administrator timely written notice of any proposal that will result in a change in the direct or indirect ownership and/or control of the Applicant. 10. The NAIT System Administrator or the NAIT Information System Access Panel may a. every 6 months or more often review the operation of the provision of NAIT information to the Applicant and the use and storage of that data (or any derivation of it) by the Applicant or any meat processor, and/or b. at any time in writing require the Applicant to provide to the NAIT System Administrator or its delegate written confirmation and/or such other evidence as may be reasonable that these Conditions are being complied with on an ongoing basis. 11. The Applicant acknowledges that information provided by NAIT from its information system is data provided to that system by third parties. Accordingly, NAIT disclaims all responsibility for, and accepts no liability in relation to, the accuracy, or completeness of that information or its fitness for any particular purpose. 12. Failure by the Applicant to comply with one or more of these Conditions is an infringement offence under the NAIT Act 2012. If the Applicant fails to comply with its obligations in relation to the NAIT information (including complying with these Conditions) then the NAIT System Administrator or the NAIT Information System Access Panel may, at its discretion, by notice in writing to the Applicant, require the immediate cessation of the provision and use of NAIT information pursuant to this Determination and/or require the Applicant to take such other steps considered by that Panel or System Administrator to be necessary or desirable to ensure compliance with these Conditions.
